Dear Respected Parent – Assalamu Alaikum / Peace be with you,

I am writing to inform you that about your daughters Year 8 Art lessons in correlation to Covid 19 and the risk of infection/contamination within the art room.

We want to decrease the usage of wet material and sharing of materials being used during this time. Your daughter will be completing an Art History series over the next year along with a sketchbook that will visually represent the knowledge learned.

To make sure your daughter is able to achieve the same outcome as previous years the Art Department will kindly ask for tea and coffee to be available at home for your daughter to create stained aged background of her sketchbook pages as homework tasks. If there are any issues, please ask your daughter to inform me so that arrangements can be made for the materials to be provided.

I have disclosed images to show the desired outcome. Your daughter will be shown how to achieve the outcome in school and the clean-up process.

Your kind consideration and support in this regard is much appreciated.

Yours Sincerely,

Miss. N. Dolan
Deputy Director of Learning, Art and Design
